

Jason Pelloni

Brandon, FL • jpelloni@gmail.com • (813) 368-9415 • LinkedIn

Senior Backend Engineer • Developer Productivity Engineer • Internal Tooling • Automation • CI/CD

SUMMARY

Senior Backend Engineer and Developer Productivity Engineer with 15+ years of experience in backend development, internal tooling, workflow automation, CI/CD engineering, API development, microservices, and cloud-native backend systems. Extensive background in Node.js, TypeScript, AWS, REST APIs, event-driven systems, and developer experience optimization. Proven ability to improve engineering efficiency, reduce manual work, automate backend workflows, enhance CI/CD pipelines, and increase reliability across SaaS and enterprise environments.

CORE COMPETENCIES

Backend Engineering • Developer Productivity • Developer Experience • Internal Tooling • Workflow Automation • CI/CD Pipelines • CI/CD Optimization • API Development • REST APIs • Microservices • Event-Driven Architecture • Cloud-Native Services • AWS Development • AWS Automation • Backend Systems • Software Automation • Reliability Engineering • Observability • DevOps Collaboration • Developer Onboarding • Technical Mentorship

PROFESSIONAL EXPERIENCE

FunToDo.com

Senior Backend Engineer / Developer Productivity Engineer

Coral Gables, FL | Feb 2025 – Present

- Built internal developer tooling, CLI automation, and workflow automation to improve developer productivity and reduce onboarding time 40%.

- Developed backend microservices using Node.js, TypeScript, Docker, ECS, EKS, and AWS services to improve reliability and reduce deployment variance 60%.
- Optimized CI/CD pipelines, automated backend workflows, and improved cloud data pipelines using S3, RDS, and EventBridge, reducing build times 30% and increasing throughput 3x.
- Delivered reusable backend modules, service templates, and automation frameworks to standardize backend development and improve developer experience.

M2Gen / Aster Insights / Zephyr AI

Senior Backend Engineer / Developer Productivity Engineer

Tampa, FL | Sep 2017 – Dec 2024

- Automated backend workflows, backend migrations, and data-processing pipelines, reducing manual engineering effort 50% and improving backend reliability.
- Built internal integration tooling, reusable backend components, automation frameworks, and developer productivity tools that accelerated feature delivery 25–35%.
- Modernized legacy backend systems into AWS-based pipelines, improving scalability, reliability, and reducing maintenance overhead 45%.
- Improved CI/CD reliability, standardized backend service patterns, and enhanced developer experience through automation and workflow optimization.

NovuSolutions

Senior Backend Engineer

Tampa, FL | Apr 2016 – Aug 2017

- Developed backend automation tools, backend APIs, and workflow automation that reduced manual data-processing tasks 70% for government operations.
- Implemented secure device-to-cloud communication using API Gateway, improving backend reliability and reducing sync failures 50%.
- Improved backend consistency, API design quality, and automation coverage across multiple backend systems.

Bisk Education

Backend Integrations Engineer

Tampa/St. Petersburg | Feb 2012 – Apr 2016

- Built backend integrations, automated file-transfer workflows, and backend ETL processes that eliminated daily manual tasks and doubled throughput.
- Improved backend data-exchange reliability between university systems and internal applications, reducing error rates 35%.
- Automated backend workflows to reduce operational load and improve consistency across integrations.

SKILLS & TECH STACK

Languages: TypeScript, Node.js, JavaScript, Python

Backend: REST APIs, Microservices, Event-Driven Systems, Internal Tooling, Workflow Automation, Backend Automation

Frameworks: NestJS, Express.js

Cloud: AWS Lambda, AWS EventBridge, AWS API Gateway, AWS ECS, AWS EKS, AWS CloudFormation

DevOps/Automation: CI/CD Pipelines, GitHub Actions, Docker, Kubernetes, CLI Development, Developer Productivity Tools

Data: MySQL, MongoDB, SQL, NoSQL, Data Pipelines, ETL Automation

EDUCATION

B.S., Computer Information Systems — University of South Florida

A.A. — Pasco-Hernando Community College
